

Hosted Exchange with BlackBerry Hosting

With its Hosted Exchange & BlackBerry® Hosting program Net-Team AG is able to offer you all advantages of a full-fledged Outlook and Exchange environment, without the need of operating an own Microsoft Exchange Server.

Worldwide access to your email, calendar, contact as well as task and notes functions is guaranteed. Your data is locally stored and therefore accessible from everywhere, whether by web access, your desktop computer in the office, the notebook on the road or on your BlackBerry.

We offer you the exclusive BlackBerry® hosting connection to our Hosted Exchange solution so that you are able to enjoy the leading mobile technology of BlackBerry® without an own infrastructure.

Hosted Exchange - the outsourcing solution

Hosted Exchange Advantages

You do not have any investment cost, save the internal administration of a Microsoft Exchange server and do not have any expenses for maintenance or software upgrades.

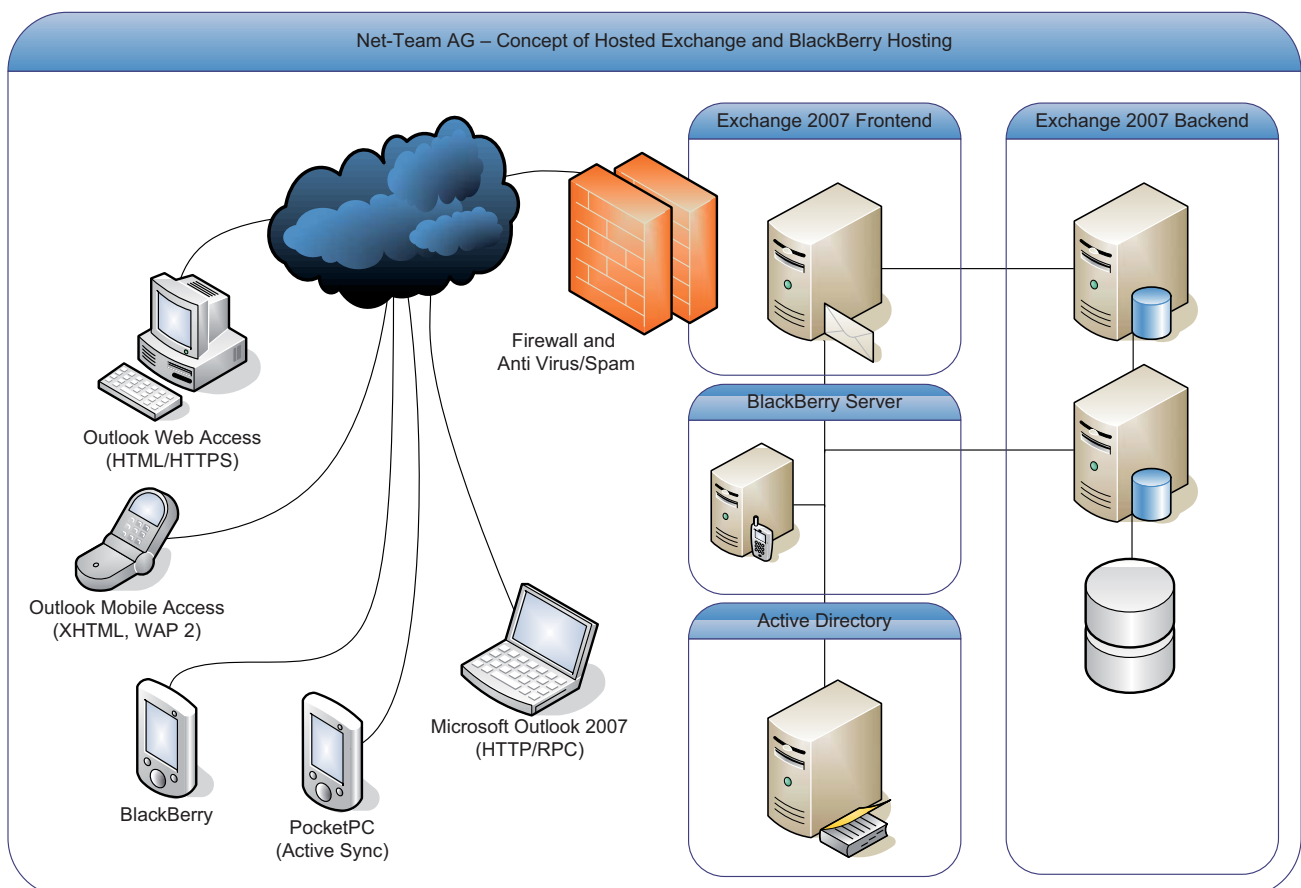

The Microsoft Exchange servers will be operated in our high performance data center. The password protected Exchange accounts (mailboxes) on these servers allow you to access your information in a secure environment from everywhere.

Hosted Exchange by Net-Team AG is the optimal platform for the exchange between team members and communication within your organization. Benefit from the Microsoft Exchange Server and Outlook to have jointly access to your files, appointments and notes in a closed group. You are able to get hold of emails, contacts and files as well as to send meeting requests to team members or to use other group functions.

Whether small and medium size companies, that decide to use the Hosted Exchange solution due to low investment and integration cost, or large companies that want to focus on their core competences or save the administration expense – the Hosted Exchange solution is the right choice.

Feature Overview

- ▶ public folders, e.g. group calendar for managing meeting rooms, automotives, laptops, etc.
- ▶ email addresses with your own domain name (yourname@company.ch)
- ▶ multiple email domains to receive emails from (e.g. info@company.ch or info@company.com)
- ▶ sharing your personal calendar with other team members (different permission levels e.g. "view only" or "full access")
- ▶ personal and global address books and contacts
- ▶ advanced spam and virus protection
- ▶ SSL encryption for your Exchange mailbox
- ▶ Daily data backup
- ▶ Daily outsourcing to external data storage

BlackBerry® Hosting - the mobile solution

BlackBerry® Hosting Overview

With BlackBerry® Hosting from Net-Team AG you will get a communication tool for your company with full BlackBerry Enterprise™ functionality.

no initial cost needed!

- ▶ no BlackBerry Enterprise™ licenses needed
- ▶ no BlackBerry Server needed
- ▶ no additional servers required
- ▶ no installation costs at initiation
- ▶ no service and support costs for the server product BlackBerry Enterprise™

no operational expense needed!

- ▶ no installation needed
- ▶ no server setup
- ▶ relief your own IT department
- ▶ high availability
- ▶ high security

Feature Overview

The most important advantages for a BlackBerry® handheld user:

- ▶ Wireless synchronization of your contacts, emails, tasks and notes
- ▶ Set up your own filters, redirects and out of office notes
- ▶ View attachments like jpeg-, bmp-, png- and tiff
- ▶ View attachments like Word, Excel, Powerpoint or pdf documents
- ▶ Intelligent data transfer; at the beginning you will get just 2 kb of the email (attachments too)
- ▶ Embedded graphics for Word, Excel and pdf documents
- ▶ No connection to computer required

Synchronization of the following modules:

Emails

All emails that are received in your Hosted Exchange inbox will also be forwarded to your BlackBerry® handheld. You will see the "inbox" and "sent items" folders by default. Your handheld offers you the possibility to configure additional folders for continuous synchronization. The status of an email message will be synchronized, which means that you will see in your Outlook (or the opposite way) whether the message was read or not.

Calendar

Entries to your calendar will immediately be synchronized with your Hosted Exchange account. Your assistant is able to access your agenda with the calendar sharing function of Hosted Exchange. Every entry is transmitted to your BlackBerry® handheld without any delay. Therefore you are always aware of your appointments and keep up to date.

Contacts / tasks

Your contacts / tasks will at all times be in line with your Hosted Exchange account.

Expandability

Our BlackBerry® Hosting infrastructure allows the combination with additional applications. Amongst other things Bloomberg is supported in our hosting environment. We will certainly assist you to satisfy any special needs, feel free to contact us!

Important Information:

BlackBerry Hosting requires the activation of a specific BlackBerry® service by your mobile carrier (e.g.: Swisscom, Orange or foreign providers).

Net-Team AG is a certified Swisscom Mobile partner and will be able to precisely answer any requests with respect to the BlackBerry Service of Swisscom.

After the receipt of payment we will provide you with the access information within 48 to 72 hours.
